

Juergen AMANN, Ph.D.

Economist

@ amannj.work@gmail.com

amannj.github.io

Paris, France

EXPERIENCE

Organisation for Economic Co-operation and Development (OECD)

Centre for Entrepreneurship, SMEs, Regions and Cities (CFE)

October 2022 – Present

Paris, FR

Economist

- **Developing sub-national economic statistics** in alignment with the System of National Accounts to measure subnational economic activity and interregional integration by leveraging official microdata sources and experimental data sources on interregional trade, procurement or business-to-business transactions.
 - **Co-authoring** the chapter on regionally extended Supply-Use tables in OECD's Handbook on Extended Supply and Use Tables.
 - **Analysing sub-national Global Value Chains** in a Supply-Use and Input-Output table framework to measure interregional linkages and regional value-chain integration.
-

World Bank

Finance, Competitiveness & Innovation; Chief Economist Office for Economics, Finance and Institutions

October 2021 – September 2022

Nottingham, GB

Consultant

- **Analysing the effect of energy prices on firm performance** with a focus on firm-level microdata and causal identification in developing countries.
 - **Literature survey** reviewing the key principles, approaches and insights from recent empirical work on the firm-level effects of energy price increases.
-

University College London

Bartlett School Environment, Energy & Resources

June 2022 – September 2022

London, GB

Research Fellow

- **Econometric modelling** evaluating energy and environmental policies in the United Kingdom.
-

University of Nottingham

School of Economics

September 2017 – September 2022

Nottingham, GB

Graduate Teaching Fellow and Course Convenor (Lecturer)

- **Courses:** Applied Econometrics I; Economic Dissertation; Econometric Theory I & II; Macroeconomic Theory; Mathematical Economics; Quantitative Economics/Methods.
-

United Nations Industrial Development Organisation

Research and Industrial Policy Advice Division (EPR/PRS/RPA)

March 2012 - June 2013, June 2014 – June 2022.

Homebased

Consultant

- **Research** in the fields of industrial structural change and environmental economics.
- **Holding workshops** on industrial development and statistics to policymakers and ministerial employees in developing countries, such as Georgia, Jordan and South Africa.
- **Co-authoring** various reports, studies and press releases, including:
 - Industrial Development Reports (IDR) 2013, 2016, 2020 and 2022;

- Programme Country Partnership (PCP);
- Enhancing the Quality of Industrial Policies (EQUIP) on Industry 4.0;
- Opinion pieces such as for the World Economic Forum (WEF) and UNIDO Stories.

European Central Bank

Directorate General Research (DG/R)

📅 May 2019 – September 2020

📍 Frankfurt am Main, DE

PhD Trainee and Research Analyst

- **Analysing** supermarket price-setting dynamics in Europe and the US at the Price-setting Microdata Analysis Network (PRISMA).

PUBLICATIONS

An Analysis of ICT Hardware Manufacturing in Industrialized Economies: Growth Patterns, Productivity Performance, and Driving Forces

Vu, Khuong, Juergen Amann.

Telecommunications Policy (2023): 102675.

Price Adjustment in the Euro Area in the Low-inflation Period: Evidence from Consumer and Producer Micro Price Data

Gautier, Erwan, Peter Karadi, Juergen Amann, Cristina Conflitti, Riemer P. Faber, Brian Fabo, Ludmila Fadejeva et al.

ECB Occasional Paper No. 2023/319 (2023).

Price Setting on the two Sides of the Atlantic - Evidence from Supermarket Scanner Data

Karadi, Peter, Juergen Amann, Javier Sánchez Bachiller, Pascal Seiler, and Jesse Wursten.

Journal of Monetary Economics (2023): 05.009.

Switching It Up: The Effect of Energy Price Reforms in Oman

Amann, Juergen, Nicola Cantore, Massimiliano Cali, Valentin Todorov, and Charles Fang Chin Cheng.

World Development 142 (2021): 105252.

Deindustrialization in Developed Countries Amid Accelerated Globalization: Patterns, Influencers, and Policy Insights

Vu, Khuong, Nobuya Haraguchi, and Juergen Amann.

Structural Change and Economic Dynamics 59 (2021): 454-469.

Sectoral Dynamics

Haraguchi, Nobuya and Juergen Amann.

In *New Perspectives on Structural Change: Causes and Consequences of Structural Change in the Global Economy*. Oxford University Press, 2021.

Revisiting Reinhart and Rogoff after the Crisis: A Time Series Perspective

Amann, Juergen, and Paul Middleditch.

Cambridge Journal of Economics 44, no. 2 (2020): 343-370.

The Importance of Manufacturing Development and Structural Change for Pro-Poor Growth

Haraguchi, Nobuya and Juergen Amann.

In *Designing Integrated Industrial Policies Volume I & II*. Routledge, 2020.

Achieving sustainable development

Amann, Juergen and Roman Stöllinger.

In *Industrialization as the driver of sustained prosperity*. UNIDO, 2020.

Growth in a Time of Austerity: Evidence from the UK

Amann, Juergen, and Paul Middleditch.

Scottish Journal of Political Economy 64, no. 4 (2017): 349-375.

WORKING PAPERS

Assessing the socio-economic impact of the circular economy through input-output modelling - Evidence from developing countries

with Albaladejo, Manuel (UNIDO), Cantore, Nicola (UNIDO), Flammini, Alessandro (UNIDO) Marin, Giovanni (University of Urbino Carlo Bo) and Massimiliano Mazzanti (University of Ferrara).

Expanded Real Value-added Data for Manufacturing: A New Approach to Measuring Sub-Sectoral Manufacturing Development

with Nobuya Haraguchi (UNIDO).

Firm-level Effects of Energy Price Increases: Review of key principles, approaches and insights from recent literature

with Dirk Heine (World Bank).

Growth and volatility: why duration matters for long run macroeconomic outcomes

with Paul Middleditch (University of Manchester, GB).

Patterns and drivers of manufacturing sector productivity in industrialized economies

with Khuong Vu (National University of Singapore).

Testing the debt threshold hypothesis: A structural break threshold Granger causality test under cross-sectional dependence

single author.

The Effects of Energy Prices on Firm Competitiveness: Evidence from Chile

with Arti Grover (World Bank).

EDUCATION

PhD Economics - University of Nottingham

 2016 – 2022

 Nottingham, GB

MA Economics - Duke University

 2014 – 2016

 Durham, US

MSc Econometrics - University of Manchester

 2013 – 2014

 Manchester, GB

BSc & MSc Economics - Vienna University of Economics and Business

 2007 – 2012

 Vienna, AT

AWARDS

- **2017 – 2021** Teaching Excellence Awards, University of Nottingham, GB.
- **2016 – 2021** ESRC DTC PhD scholarship, University of Nottingham, GB.
- **2014 – 2016** Fulbright scholarship, Duke University, US.
- **2013 – 2014** Federal state scholarship, University of Manchester, GB.
- **2012** Vienna Chamber of Labour, scholarship for master thesis.

SOFTWARE

- **comtradeRggregator**: A simple tool to download and reclassify large chunks of Comtrade trade data.
 - Single author and developer.
 - <https://amannj.github.io/resources/comtradeRggregator/>
- **PSBTGC**: A Panel Structural Break Threshold Granger Causality testing framework.
 - Single author and developer.
 - <https://amannj.github.io/resources/PSBTGC/>
- **comtradr**: R package for interacting with the UN Comtrade Database public API.
 - Contributor.
 - <https://docs.ropensci.org/comtradr/>

METHODS & SKILLS

- **Data Science**: Big Data applications, machine learning and cluster computing (Spark).
- **Input-Output modelling**: Microdata (firm-level and household data, freight-flow, regional government statistics), national accounts data, web scraping, inter-regional trade, procurement data and "top-down" modelling techniques (gravity models, etc.)
- **Data**. Working on various national and cross-national manufacturing data sources, enterprise surveys, international trade data, multi-regional Input-Output tables, Supply-Use tables, and web scraped data. Extensive experience with confidential microdata and Big Data.
- **Panel Econometrics**. Including IV, GMM, PSM, Synthetic Controls and Common Correlated Effects, etc.
- **Time Series Econometrics**. Granger Causality under parameter instability and unobserved common factors; nowcasting; volatility models.
- **Programming**. C++, git, GIS, Julia, MATLAB, Python, R, Spark, SQL, Stata, etc.
